Illumiti
Realize your vision

SAP FOR MOBILE

With more than 5 billion mobile phone subscribers and more than 9 billion mobile app downloads worldwide, there is no question that mobility is here to stay. While this growth demonstrates how consumers are embracing mobility, it is also an opportunity for enterprises to leverage the demand and adoption of mobile technology to improve productivity and collaboration with employees, partners, and customers. Mobility truly has the power to transform the way businesses operate.

> " Illumiti can help you design, plan and execute your mobility strategy across your organization.

Sharpen Your Competitive Edge With SAP's Mobile Solutions

Give your employees secure mobile access to the information and systems they need most – anytime, anywhere, and on any device – with SAP's mobile solutions. SAP has a wide range of mobile apps and underlying infrastructure designed to enable you to outmaneuver the competition at every turn – no matter the size of your business.

Key Features of SAP's mobile solutions

- **Mobility Platform** – Quickly build and deploy business-to-enterprise, business to-business, and business-to-consumer mobile apps, with an enterprise mobility management infrastructure that lets you centrally manage and secure mobile devices, applications, and data

- **Mobile Apps** – Extend your business processes to any device – for anytime, anywhere access – with a growing selection of SAP and partner apps, including ones for people productivity, mission-critical, consumer, and mobile analytics and implement mobile technology initiatives

Illumiti And Mobile Solutions

Illumiti can help you design, plan and execute your mobility strategy across your organization. Our team can help you adopt SAP's innovative mobile technologies via a sustainable and secure process that aligns with your strategy. As a result, you can develop, communicate, and implement an actionable, flexible enterprise mobility initiative that enables you to generate business value from your existing and future SAP software investments

Illumiti is a Systems Integration and Management Consulting company. We enable customers to realize their vision by leveraging SAP technology, people, and leading business practices. Implement Quickly And Efficiently With Rapid Deployment Solution For SAP Mobile Apps And Infrastructure

Illumiti offers an SAP-qualified Rapid-Deployment Solution for Mobile Apps and Infrastructure that provides an ideal way for you to get started with mobility at a fixed price, fixed scope, and fixed timeline, to lower the cost of implementation and accelerate time to value.

This preconfigured solution streamlines the implementation process, and brings together software, best practices, and services to help boost productivity and improve business performance. With it, you can provide your on-the-go workforce with instant access to important data.

It consists of people productivity mobile apps that touch on multiple lines of business along with a solid and comprehensive mobile platform that allows you to grow your mobile solutions in the future. This solution will enable users to become mobile and remain productive anywhere, anytime and on any device in as little as 8 weeks, and priced to fit your budget.

Pre-Packaged Mobile Apps

Get pre-packaged mobile Apps that let you increase productivity across multiple functions like sales, finance, HR, logistics and procurement. Our team can help implement a wide-range of pre-configured Apps including:

- SAP Manager Insight Mobile App: Better manage your major differentiator – your people – with SAP's employee profile App.

- SAP Cart Approval Mobile App: Streamline internal procurement and boost productivity by allowing managers to approve employee requests on the go.

- SAP Travel Receipt Capture Mobile App: Simplify expense reporting and reduce the administrative overhead of working through receipts after a business trip.

- SAP Sales Order Notification Mobile App: Salespeople can keep track of important orders including any changes.

- SAP In-Store Product Lookup Mobile App: Give store managers and sales associates fingertip access to product information management tools – without leaving the floor.

Custom Mobile Apps

Gain competitive advantage by building custom solutions to address your unique, mission-critical, and often complex business requirements. Our team will work with your stakeholders to help you build a mobile strategy and then create custom Apps designed to achieve your unique objectives including:

- Higher workforce productivity
- Increased win rates with mobile access to real-time customer data
- Faster, more informed decisions at the point of action
- Better, more responsive customer service
- Accelerated sales cycles
- More flexible, agile, and accurate forecasting
